**COVID-19 Status Report
Oak Park Village Board of Trustees**

To: Village President and Village Board of Trustees

Fr: Cara Pavlicek, Village Manager

As means to share a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels.

New Public Health Guidance

Oak Park Director of Public Health Mike Charley issued the following today:

- Today, the Village of Oak Park Department of Public Health received notification of seven (7) additional COVID-19 cases. To date, the State of Illinois has reported a total of sixty-six (65) total Oak Park COVID-19 cases. Today's newly reported cases range in age from 50s to 80s. As noted previously, total cases reported by the State of Illinois do change from time to time when public health follow-up establishes an individual initially identified as a resident of Oak Park no longer resides here.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals and first responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).
